### Focused energy: mastering bottom-up organization by ...

Only 10% of managers are high in both focus and energy, two of the main ingredients for success. The authors found that 20% were disengaged, 30% were high in procrastination, and 40% were easily distracted. This means that 90% of managers, and likely the rest of us, lack both focus and/or energy. You don't have to be a statistic.

### 5 Quick Tips to Improve Your Focus and Energy | BrainMD Life

Similarly, the more scattered your energy, the more exhausting and chaotic your endeavor, usually requiring more and more energy to complete. Mastering your energy means becoming self-aware and understanding why you do what you: what are the real motivations behind your thoughts and actions and whether they reflect self-love or fear.

### 5 Keys To Mastering Your Energy (and Your Life ...

As the energy moves to follow your perception, the temperature of where you focus will rise. It is not unusual when you are trying to focus, to feel vibrations and hear sounds or even utter silence.

Top-down and bottom-up approaches are methods used to analyze and choose securities but the terms also appear in many other areas of business, finance, investing, and economics.

### **Top-Down vs. Bottom-Up: What's the Difference?**

Energy can be sped up or slowed down. It can exist in a closed system in which the energy is held or bound, or it can exist in an open system in which the energy flows. Uncontained energy can cause a system to become frenetic or fragmented. Depleted energy can cause a system to collapse. Despite its power, energy in of itself is a neutral force.
