Information Please Culture And Politics
"Engaging, informative, and thoroughly enjoyable, Information Please is a tour de force in its clear articulation of a coherent approach to the spectrum of issues arising from the penetration of information technology into every aspect of human life, from questions of global politics to the construction and protection of identities and selves in the context of digital media."—Tim Lenoir, Kimberly J. Jenkins Professor of New Technologies and Society, Duke University

Information Please: Culture and Politics in the Age of ...
Information Please advances the ongoing critical project of the media scholar Mark Poster: theorizing the social and cultural effects of electronically mediated information. In this book Poster conceptualizes a new relation of humans to information machines, a relation that avoids privileging either the human or the machine but instead focuses on the structures of their interactions.

Information Please: Culture and Politics in the Age of ...
In Information Please, Mark Poster asks how information works differently when it is mediated through digital machines, arguing that much cultural theory has ignored the importance of specific media in understanding subjectivity, relations among people, and culture (4).He begins with the basic contention "that information increasingly appears in complex couplings of humans and machines" (9).
