Sawyer Slide Projector Manual

A slide projector is an opto-mechanical device for showing photographic slides.. 35 mm slide projectors, direct descendants of the larger-format magic lantern, first came into widespread use during the 1950s as a form of occasional home entertainment; family members and friends would gather to view slide shows. Reversal film was much in use, and supplied slides snapped during vacations and at ...

Slide projector - Wikipedia

Is there a kind of slide projector for sale that's better for large spaces or specialty use? Lantern slide projectors are commonly used in auditoriums and theaters more than in private use, in part because they utilize a 750-watt lamp that requires cooling by a blower, and play slides that are 3.5 by 4 inches.
